Relative Humidity	90% RH Non-Condensing
Environment	For Dry Indoor Use Only
Mounting	Single gang electrical box

STANDARD FEATURES

- UL Listed and FM approved
- Physical switch provides NFPA-compliant disable solution for releasing service

DESCRIPTION

SOM-R-DS is a double-pole single-throw disable switch used to disable a releasing circuit for system testing or maintenance. The SOM-R-DS is compatible with SOM-R addressable module and the HCVR-3 Conventional Releasing Fire Alarm Control Panel. SOM-R-DS is intended to be mounted to a single gang electrical box.
