

PRODUCT ANNOUNCEMENT

April 3, 2017

Dear Valued Customer,

We would like to inform you that Hochiki America will **discontinue** the **SLR-24V Photoelectric Smoke Detector Series** and replace it with the next generation **SOC-24V / SOC-24VN Photoelectric Smoke Detector Series**. Please see below for effective dates.

Old Model	Date of Discontinuation	New Model	Date of Official Release
SLR-24V #0200-01778 SLR-24VN #0200-04005 SLR-24H #0200-01770 SLR-835 Series Multiple part numbers	4/3/2017	SOC-24V #0200-06700 SOC-24VN #0200-06720	4/3/2017

SOC-24V Photoelectric Smoke Detector

The SOC-24V is a reliable, high quality Photoelectric Smoke Detector. It can be used in all areas where Photoelectric Smoke Detectors are required. The computer-designed smoke chamber makes the SOC-24V well suited for detecting smoldering fires as well as fast-flaming fires. NS-4 Series, NS-6 Series, HSC-4R or HSC-R Style bases may be used with the SOC-24V.

The SOC-24V photoelectric smoke detector utilizes one bicolored LED for indication of status. In a normal standby condition the LED flash Green every 3 seconds. When the detector senses that its sensitivity has drifted outside the UL listed sensitivity window the LED will flash Red every 3 seconds. When the detector senses smoke and goes into alarm the status LED will latch on Red.

Please note: SOC-24VN comes with no Reed Switch.

Thank you for your understanding and support of HOCHIKI products. We look forward to continuing to provide you with life safety solutions for your customers.

Sincerely,

Hochiki America Marketing
