

## PRODUCT DISCONTINUATION

November 11, 2013

Dear Valued Customer,

We would like to inform you that HOCHIKI America will discontinue the products below effective **December 31, 2013**.

<u>Old Model</u>	<u>New Model</u>
ATG-EA	ATJ-EA
SRA-24	N/A

### **ATG-EA Heat Sensor**

The ATG-EA Heat Sensor will be discontinued and replaced by the ATJ-EA Heat Sensor, which is fully interchangeable with the ATG-EA and boasts a sleek, new look. The ATJ-EA has the same great features of its predecessor as well as some additions. We will follow up in early January 2014 with the official release of the ATJ-EA and provide you with its data sheet outlining the exciting additions to this sensor.

Also, please be advised that the UL 9<sup>th</sup> Edition FireNET and FireNET Plus panels will need to have the latest firmware (coming soon) installed before switching to the use of the ATJ-EA heat sensor. A UL 9<sup>th</sup> Edition FireNET panel (once updated with the new firmware) will recognize the ATJ-EA as an ATG-EA sensor and function as an ATG-EA sensor. As a result, the ATJ-EA sensor's additional features will not be available. Alternatively, the FireNET Plus panel will recognize the ATJ-EA sensor and function with all of its capabilities (once updated with the new firmware). Our Technical Support team can answer questions and provide additional support regarding this change in product. Please note that the UL 8<sup>th</sup> Edition FireNET will not support ATJ-EA.

### **SRA-24 Reflective Beam Smoke Detector**

The SRA-24 Reflective Beam Smoke Detector is available while limited supplies last. While there is not a direct replacement for the SRA-24, HOCHIKI America does provide additional beam detector solutions. These include the SPC-24 Point-to-Point Beam Smoke Detector and the OSID (Open-area Smoke Imaging Detection) by Xtralis which features smoke imaging detection technology. The data sheets for both products are enclosed for your reference.

We apologize for any inconvenience these updates may cause you. Please feel free to contact us if you have any questions or comments. Thank you for your understanding and continued support of HOCHIKI products.

Sincerely,

Loren Leimer  
Vice President of Technical Services  
HOCHIKI America Corporation
