

INTRODUCTION

Established in 1918, Hochiki is one of the world's leading manufacturers of commercial and industrial fire detection solutions. With a heritage of innovative design and leading-edge technologies, Hochiki's products have acquired global acceptance as the benchmark for high-integrity and longterm reliability.

INTERNATIONAL COVERAGE, REGIONAL COMMITMENT

Hochiki is a wholly independent, multinational, publicly listed group of companies with over 2000 employees working across six manufacturing plants, 38 sales offices and 14 subsidiaries.

Hochiki invests in manufacturing innovation on a continual basis to ensure customer satisfaction, and production facilities in Japan, the United States of America and Europe ensure international continuity of quality, service and supply.

These regional centers design and manufacture products and provide technical support suited to local standards and customer requirements. Total commitment

to meeting the needs of individual national markets has reinforced the company's global reputation, resulting in Hochiki products being installed in many prestigious sites and in over 80 countries worldwide.

Hochiki's vision is to provide products to the highest levels of quality and reliability. Complying with industry standards, the ultimate quality of Hochiki's comprehensive range of products virtually eliminates false alarms and, combined with ease of installation, offers the greatest reliability with the lowest total cost of ownership possible in a modern life safety system.

COMPLIANCE WITH STANDARDS

Working closely with all major approval bodies across the world, Hochiki fire detection and emergency lighting products fully conform with all of the latest standards and regulations.

Manufacturing plants are accredited to ISO 9001:2015 the highest and most recognized standard in the industry

STATISTICS TAKEN FROM THE HOCHIKI CUSTOMER SERVICE SURVEY DECEMBER 2016

Respondents rated product quality as either 'very good' or 'excellent'

Customers stated our market reputation is 'very good' or 'excellent'

Customers are most likely to recommend our products

U.S. MANUFACTURING FACILITY

Hochiki America has been manufacturing in Southern California since 1972 and as required for the United States market, our products are approved by recognized agencies such as Underwriters Laboratories and Factory Mutual. Hochiki America also manufactures its printed circuit board assemblies in the United States. Hochiki believes that the secret to reliability is controlling the manufacturing process every step of the way, testing, testing and retesting everything it makes all the way through the production process.

STANDARD of EXCELLENCE

With vast experience in the fire alarm industry, . Many of our larger customers are well recognized Original Equipment Manufacturers (OEM). For 50 years Hochiki America has been suppliers of quality smoke detectors to the fire alarm industry. Our longstanding relationships are due to the fact that we offer the highest in quality workmanship at competitive pricing. Hochiki America's internal failure rate for all of its products is less than 0.0002%, unprecedented for a manufacturer of dedicated electronic products. Most of the quality is "built in"

from the ground up using only the finest in raw materials and the most advanced automated testing and manufacturing equipment available anywhere.

OPEN PROTOCOL

Open Protocol allows products and services from a large number of suppliers to be selected and integrated. Hochiki operates in partnership with a number of high quality, independent international manufacturers on fire alarm control panels, ancillary equipment and service providers. As a result, the best possible solution can be achieved without being restricted to one supplier

INTELLIGENT ADDRESSABLE

Hochiki's Signature addressable product line incorporates a variety of high performance sensors, modules and ancillary devices to increase the ease of installation and routine maintenance. Digital Communication Protocol (DCP) applies Hochiki's high integrity communications to link all products

CONVENTIONAL

Hochiki's extensive industry leading conventional list of products provides solutions for most conventional fire detection applications to its versatility and wide voltage range.

COMPLETE SYSTEM

Our complete system incorporates a full line of flexible fire detection systems which can be configured for any environment.

SUPPRESSION

Created in 2013, Hochiki's Fire Suppression systems include condensed aerosol and kitchen systems as well as high-sensitivity air sampling smoke detection and clean agent fire suppression.

HOCHIKI - THE LEADER IN INNOVATIVE LIFE SAFETY SOLUTIONS

Hochiki is a wholly independent, multinational, publicly listed group of companies with over 2000 employees working across six manufacturing plants, 38 sales offices and 14 subsidiaries. For almost 100 years Hochiki Corporation has led the way in the design and manufacturer of innovative life safety solutions. Its leading edge commercial and industrial fire detection and emergency lighting products have acquired global acceptance as the benchmark for high-integrity and long-term reliability.

Hochiki's United States headquarters were established in 1972 in Southern California. Operating under Hochiki America, the business provides advanced fire alarm products worldwide. At present, Hochiki America builds in excess of 1 million conventional and intelligent detectors and ancillaries per year at its purpose-built production facility.
