

November 14, 2012

Dear Valued Hochiki America Customer,

Due to the lack of availability of electronic components, Hochiki America will be discontinuing the SOM, R2M, and FRCME-4 modules effective immediately. We will still be able to provide equivalent replacements through our next generation modules, the SOM-A Series, R2ML& R2MH Series, and FRCMA Series.

Replacement Model Chart

Old Model	New Models
SOM	SOM-A, SOM-AI
R2M	R2ML, R2ML-I, R2MH, R2MH-I
FRCME-4	FRCMA, FRCMA-I

Since their official launch in 2011, Hochiki America has experienced great success and feedback from the release of these modules. These new modules have added standard features and specifications, and are fully supported by 9^{th} Edition panels.

Please contact your Regional Manager or Customer Service Representative for ordering and additional details.

Hochiki America greatly appreciates your continued support of our products. We hope to continue the relationship with many years to come.

Sincerely

Loren Leimer

Vice President of Engineering Hochiki America Corporation
